Request for Continued Examination

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.117(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/3/08 has been entered.

Restriction Requirement

Having found claims 3 and 23 in condition for allowance due to the affidavit submitted by Dr. Schmidt on 12/17/08, claims 14-15, 18-19, drawn to process of making thereof are now rejoined and examined.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 18 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

There is no support in the specification that any two of the steps in the claim would produce the compounds of claim 3. Even then, it is not possible to make compounds of claim 3

Art Unit: 1625

from steps (a)-(b), (a)-(c), or (a) and (c), for example. By deleting "at least two", in line 2 the rejection would be overcome.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 15, 18, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Compounds of formula I, embrace many embodiments, including compounds of claim 3, which are made in claim 15. Therefore, reacting compounds of formula I with CO₂ to make compounds of claim 3, is confusing and indefinite. For reason set forth above claim 18 is indefinite. Appropriate correction is required.

Allowable Subject Matter

Claims 3, 14, 19-23 are allowable over prior art of record. Claims 1-2 are objected to for containing non-elected subject matter. To place the application in condition for allowance applicant must delete all the non-elected claims 4-13, 24-32, and amend 1-2 within the scope of the elected invention.
